

Scope :extend this 8 ft fence by an additional 30 ". Extend all existing posts (#5- 2-7/8" & #2 1-7/8 " line posts) using an interior sleeve. Install another top rail and putting up a 30 " wide strip of mesh . . The existing gate would not be extended , run the additional mesh right over the .top of the gate to close the gap.You will have to "notch" the mesh to accomodate the gate

*Use a boulevard clamp (scroll to picture in FFprojects of blvd clamp) 1 7/8 " line posts so that I can leave the existing top rail in place

NOTES:

Boulevard Clamp
